# Why Dr Derek Mahony TRUSTS NSK ACROSS 15 CLINICS

Running one busy practice is challenging – running 15 Full Face Orthodontics clinics across Australia demands exceptional consistency, reliability, and quality.

For Dr Derek Mahony, an internationally recognised orthodontic leader, equipment performance isn't a preference; it's a non-negotiable foundation for maintaining high clinical standards across his network.

## Why NSK Became Essential

With some clinics seeing up to 40 patients per chair each day, Dr Mahony needed handpieces and maintenance systems that could withstand heavy use, minimise downtime, and deliver predictable results. Over time, each Full Face Orthodontics location developed its own mix of chair connectors, handpieces, and maintenance routines – creating inconsistency, complicating staff training, and limiting the ability to move equipment between clinics. Recognising these inefficiencies, Dr Mahony initiated a full network-wide review, which ultimately led him to NSK.

## Improved Performance for Full Face Orthodontics

Clinical teams immediately noticed the difference with NSK S-Max handpieces – exceptional cutting performance, reduced vibration, quieter operation, and ergonomics designed for all-day use. For a high-volume orthodontic network, these improvements translated into faster procedures, smoother workflows, and a more comfortable patient experience.

## iCare: Protecting a Large-Scale Investment

With numerous handpieces rotating across 15 clinics, maintenance efficiency is vital. The NSK iCare system automates cleaning, standardises lubrication, and preserves chuck retention, improving longevity and ensuring consistent performance across the Full Face Orthodontics network.

## Advanced Surgical Workflows Made Easy

Within the surgical suites, Dr Mahony and the team also integrated the Surgic Pro with the VarioSurg ultrasonic bone system. The combined setup – operating from a single stand and foot control – created a streamlined, intuitive environment with improved ergonomics for complex procedures.

## Craftsmanship That Lasts

For Dr Mahony, NSK's Japanese engineering and long-standing reliability align perfectly with the Full Face Orthodontics philosophy: precision, consistency, and uncompromising quality. Reflecting on years of clinical experience, he notes: "The handpieces that have lasted the longest in my clinics are unquestionably NSK."

**"The handpieces that have lasted the longest in my clinics are unquestionably NSK."**

#### Terms & Conditions

Valid from 1 January to 31 March 2026. Prices are listed in AUD and include GST. Offer cannot be used in conjunction with any other NSK promotion. Q1 2026 promotion excludes EX/FX ranges, spare parts, and components.

#### Extended Warranty

Extended warranty applies exclusively to selected S-Max and Ti-Max restorative handpieces only, purchased between 1 January until 31 March 2026. Unlock your additional 6-month warranty by applying promo code #Q126 at the time of purchase to your distributor. Must register your handpiece online upon receipt. Visit [nsktech.com.au/product-warranty/](http://nsktech.com.au/product-warranty/) to complete your product registration. NSK shall not be held liable for the tracking, monitoring or verification of any S-Max or Ti-Max handpieces that have not been registered for warranty in accordance with the required process. Extended warranty excludes surgical handpieces.
